

FarQuest

The All-in-One Social-Fi Questing Solution

Your plug-and-play gateway to engaging
and rewarding social quests.

Introduction to Farquest

What is Farquest?

Farquest is an all-in-one SDK and API designed to seamlessly integrate into any platform.

Developer Experience

Simplify the creation, management, and execution of social-fi quests.

Everything You Need In One place

ENDPOINTS

```
GET /quest/types
GET /quest/requiredFields/{id}
GET /quest/completions/count/{id}
GET /quest/validation/{id}
GET /quest/{id}
GET /quest/{id}/user/{userId}
GET /quest/list/{page}/{filter}
POST /quest/create
POST /quest/complete
```

Market Need & Opportunity

Transforming the Social-Fi Landscape

A surge in social-fi projects over the last year, with questing becoming a core component.

Legacy Platforms Keep Getting worse

Challenges with current Web2 APIs:
Expensive, rigid, and frequently changing, limiting developer creativity.

Greater flexibility, lower costs, and enhanced user engagement without fatigue.
